

Aardvark
DRILLING INC.

Aardvark Drilling Inc.

Aardvark Drilling Inc. provides cutting-edge, reliable, safe service for our clients and employees through the use of high-quality equipment, innovative drilling techniques, and ongoing training for our personnel.

Aardvark Drilling has an integrated management approach encompassing the entire drilling team. This management promotes innovative drilling solutions for our clients, reliable crews and equipment, employee accountability and a safe work environment for employees, sub-contractors and client representatives.

As a result of our team effort Aardvark was recognized in 2005 as one of the top 50 emerging growth companies and again in 2013 as one of the 500 fastest-growing companies in Canada by Profit Magazine.

"I wanted to let you know how much we enjoyed working with your guys. They were very efficient and cooperative. I would also like to commend you on the condition and equipment on your rig. I don't think the job could have gone any smoother."
Harold E. Cameron, Senior Technologist, Golder Associates Ltd.

"Many thanks to you and Aardvark for your flexibility. The work was completed in good time and more importantly great quality. All field staff only had great things to say about your guys."
Philip Tibble, M.Sc., P.Geo., Project Hydrogeologist, WESA Inc.

"Our program required the highest level of technical skill and innovation, combined with rigid regulatory compliance, superlative customer service and no small amount of tactful community relations. Aardvark rose to the challenge in all of these areas on a daily basis."
Heather Gingerich, M.Sc., Project Manager, Hudson Bay Exploration and Development
